SCHUCK GROUP

SCHUCK SERVICE

A comprehensive range of services, from product-related commissioning and handover of the systems to the customer's operations, repairs, and maintenance, all the way to training for Schuck and third-party products.

SCHUCK SERVICE DIVISION

The complete range of services from after sales services to maintenance and repair, up to training for Schuck- and foreign products.

Industrial Services for Valves and Actuator Technology

Schuck Service: Your Partner for Valves

We service, repair, and retrofit ball valves, actuators, and control systems. We also supply compatible replacement parts and new parts. Our team primarily supports Schuck Group products worldwide. Thanks to our extensive expertise, however, we also reliably repair and service products from other manufacturers.

Preventive Maintenance: Extend Service Life

Regular maintenance significantly extends the service life of complex systems. Our technicians assess the condition of your systems on-site and provide you with personalized advice. Upon request, we can arrange customized maintenance contracts that reduce costs and ensure spare parts are available quickly.

Repairs and Renovations: From Planning to Final Inspection

We handle individual repairs as well as the entire project management process. Upon request, we take care of logistics, set up the construction site—including lifting equipment—and provide the necessary tools. Finally, we inspect the systems and commission them properly..

SCHUCK SERVICE DIVISION

The complete range of services from after sales services to maintenance and repair, up to training for Schuck- and foreign products.

SCHUCK PRODUCT PORTFOLIO

An overview of our product portfolio across all business divisions.

SCHUCK TRANSPORT

Ball Valves
Ball Valve Type G Fully Welded, 1/2" – 2", CL150 – 1500
Ball Valve Type G Fully Welded, 3" – 12", CL150 – 900
Ball Valve Type G Fully Welded, 14" – 60", CL150 – 900

Ball Valve Type S Split Body, 2" – 3", CL150 – 2500
Ball Valve Type S Split Body, 4" – 56", CL150 – 1500

Ball Valve Type U Top Entry, 6" – 12", CL150 – 2500
Ball Valve Type U Top Entry, 14" – 24", CL150 – 1500
Ball Valve Type U Top Entry, 28" – 42", CL150 – 900

Jet Control Check Valve DRV, 1" –24", CL150 – 1500
Jet Control Check Valve DRV, 28" –56", CL150 – 900

Insulating Joints
Insulating Joint Type SHD, 1" – 56", PN50 – 420
Insulating Joint Type SHD Water, 3" – 56", PN50 – 420
Insulating Joint Type SHLO, 1" – 56", PN50 – 420

Fittings
Compensator Type SDS, 3" – 40", PN50 – 100
Pig Launcher Type SMO, 3" – 60", bis CL900
Collector, 3" – 60", bis PN230
T–Fitting, 3" – 60", PN50 – 320

SCHUCK ACTUATORS

Direct gas and Gas over oil
Gas over oil actuator system Type G
Direct gas system actuator system Type KY

Pneumatic
Pneumatic double-acting actuator system Type K
Pneumatic spring return actuator system Type K7/K8

Electrohydraulic
Electrohydraulic actuator system Type C
Electrohydraulic actuator system Type X
Electrohydraulic spring return actuator system Type C7/C8

Electric
Electric actuator system

Manual
Manual actuator system

SCHUCK DISTRIBUTION

Gas House Lead-Ins
Gas House Lead-Ins HSP, 1" – 2", PN5
Gas House Lead-Ins HSP–FLEX/PEFLEX, 1" – 2", PN5
Gas House Lead-Ins HS, 3" – 6", PN5
Gas House Lead-Ins HS–FLEX, 3 – 6, PN5

Water House Lead-In WHP, 1" – 2", PN16
Water House Lead-In WHP–PEFLEX, 1" – 2", PN16
Water House Lead-In ROKA–W, 3" – 6", PN10

Cleansing Capsule Sanova, 1" – 2", PN5
Cleansing Capsule SKR, 2 1/2" – 4", PN5
